

AURORA ENERGY LTD
NOTIFICATION OF ELECTRICITY DELIVERY PRICES

Pursuant to the Commerce Commission's Electricity Distribution Information Disclosure Determination 2012, Aurora Energy Ltd gives notice that the following prices will apply for energy delivery from 1 April 2017. Current prices are also detailed as required by regulation. New prices largely result from the combined effect of the increase in distribution price allowable under Aurora's default price-quality path, and increased transmission expenses.

Electricity consumers should note that these prices are not necessarily the same as may appear on invoices from their electricity retailer. If this is the case then any questions should be addressed to the retailer concerned.
Prices exclude GST.

Notes:

Winter - 1 May to 30 September

Summer - 1 October to 30 April

Prices exclude GST. Total prices may not add to the sum of Distribution and Pass-through prices due to rounding differences.

The Frankton sub area is defined by Aurora as comprising connections at threat of uneconomic bypass as a result of competitive, grid-connected, distribution. A prudent discount policy applies.

For connections in capacity groups 16kVA and above that satisfy the criteria under the Electricity (Low Fixed Charge Tariff Option for Domestic Consumers) Regulations 2004 to be classified as domestic, then the Residential pricing applies as the low fixed charge option.

Pricing information, including a copy of this notice, is maintained on the Aurora Energy Limited website (www.auroraenergy.co.nz).
