Box 1: Voluntary explanatory comment on disclosed information

Value of forecast capital expenditure has been disclosed on the basis of the expected market valuation, consistent with clause 2.2.11(5)(f) of the Electricity Distribution Services Input Methodologies Determination 2012.

This approach is likely to give rise to an inherent discrepancy between capex forecast in AMP schedules, and the subsequent reported capex for the same year. This is owing to the length of time required for obtaining market valuations of asset additions.
