

## LV MAINS REPLACEMENT RATES

1 January 2010 to 31 December 2010

### REPLACEMENT OF OVERHEAD LV MAINS

When the overhead LV mains to a customer's premises require replacement because their condition has deteriorated, the cost is shared equally between the customer and Aurora. The rates below are the customer's contribution, being a one-half share of the total cost.

	Dunedin			Central Otago		
	Zone 1	Zone 2	Zone 3	Zone 1	Zone 2	Zone 3
Single phase 60 Amp	\$224.00	\$264.50	\$305.00	\$280.75	\$366.75	\$418.75
Two phase 60 Amp	\$314.00	\$354.50	\$395.00	\$358.75	\$444.75	\$496.75
Three phase 60 Amp	\$400.00	\$440.50	\$481.00	\$410.25	\$496.25	\$548.25
Single phase 100 Amp	\$274.00	\$314.50	\$355.00	\$301.25	\$387.25	\$439.25
Three phase 100 Amp	\$473.00	\$513.50	\$554.00	\$442.75	\$528.75	\$580.75

### OTHER OVERHEAD LV MAINS WORK (full cost to consumer or property owner)

	Dunedin			Central Otago		
	Zone 1	Zone 2	Zone 3	Zone 1	Zone 2	Zone 3
Shift LV Mains (Note 3)	\$145.00	\$226.00	\$307.00	\$346.50	\$518.50	\$622.50
Temporary removal & replacement (Note 4)	\$290.00	\$452.00	\$614.00	\$478.50	\$882.50	\$1,030.50
Overhead LV mains check (Note 5)	\$68.00	\$90.00	\$135.00	\$178.00	\$350.00	\$454.00

Repair work on the customer's part of the overhead LV mains not covered by the categories above will be charged at day-work rates. For after-hours repairs, a minimum two hour labour charge of \$432.96, plus vehicle time, plus GST (two person crew) will apply.

### SERVICE ZONES

<b>Zone 3</b>	Deborah Bay, Aramoana, rest of Peninsula, Brighton, Taieri Mouth (North bank), Berwick, and the rest of The Taieri	Roxburgh, Millers Flat, Ettrick, Glenorchy, Cardrona, Makarora

## **NOTES TO LV MAINS REPLACEMENT RATES**

**Note 1:** All rates exclude Goods and Services Tax.

**Note 2:** All rates are for normal business hours of 8.00 am to 5.00 pm, Monday to Friday, and excluding public holidays.

**Note 3:** Mid-span joints of neutral screen cable are not practical, hence this rate is only applicable to shifting overhead neutral screen mains when a length extension is not required - overhead neutral screen mains to be moved, when the existing cable is in a satisfactory condition but not long enough, will require replacement mains to be installed and the customer will be charged the full cost, ie twice the charge listed above. Open-pair overhead LV mains will not be moved and must be converted to neutral screen when relocation is required, in which case the consumer will pay the normal consumer contribution for overhead LV mains replacement

**Note 4:** This work consists of disconnecting overhead LV mains to allow building repair, such as bargeboard replacement, and reconnecting of mains when the work is complete.

**Note 5:** Overhead LV mains checks include: establishment of mains entry positions, size checks, clearance and safety checks. If the check identifies a problem that is Aurora's responsibility to remedy (for example, a leaning pole) then Aurora will meet the cost of the check.
