

ELECTRICITY INFORMATION DISCLOSURE

HERE ARE AURORA ENERGY'S NEW LINE CHARGES EFFECTIVE 1 APRIL 2021

Aurora Energy is your local electricity network distributing electricity to more than 90,000 homes, farms and businesses in Dunedin, Central Otago and Queenstown.

Aurora Energy's line charge prices recover the direct costs of distributing electricity to you across our network (distribution prices), and other indirect costs including incentives, rates, regulatory levies and transmission of electricity across Transpower's national grid (together, pass-through prices).

The Commerce Commission regulates to constrain the revenues of distribution businesses like Aurora Energy, to protect the interests of consumers, and sets stringent standards for service performance.

Aurora Energy provides network distribution services to electricity retailers and bills them line charges. Line charges are just one component of your power bill, and each retailer decides how it will reflect line charges in the amount you pay. Accordingly, Aurora Energy cannot guarantee the line charges specified here are the line charges that retailers bill consumers.

For retail electricity prices, please contact your retailers.

Effective from 1 April 2021, this disclosure details our new line charge prices in accordance with the draft Aurora Energy Limited Electricity Distribution Customised Price-Quality Path (CPP) Determination of 2021, and the Electricity Distribution Information Disclosure Determination 2012.

Aurora Energy's line charges will rise from 1 April in line with the Commerce Commission's draft decision on its plans to invest around \$114 million each year on operating, plus safety and reliability upgrades across the network.

A full explanation of the factors affecting this price change will be given in our updated pricing methodology, due for publication on our website (www.auroraenergy.co.nz) on, or before, 31 March 2021. Transmission charges represent 25% of total delivery prices on average. All charges exclude GST.

NOTES

Winter rates apply 1 May to 30 September. Summer rates apply 1 October to 30 April. Prices exclude GST.

The Frankton sub area is defined by Aurora Energy as comprising connections at threat of uneconomic bypass as a result of competitive, grid-connected, distribution. A prudent discount policy applies.

If connections in capacity groups 16kVA and above satisfy the criteria in the Electricity (Low Fixed Charge Tariff Option for Domestic Consumers) Regulations 2004 to be classified as domestic, then Residential pricing applies as the low fixed charge option.

Pricing information, including a copy of this notice, is maintained on Aurora Energy's website www.auroraenergy.co.nz
