Security for payment for goods or services under the contract:

Disconnection.

Aurora's obligations to consumers in the event that the supply of electricity lines services is interrupted

- (a) Subject to subclause (b) below, if:
 - (i) a general network failure occurs: or
 - (ii) an Unplanned Interruption occurs; or
 - (iii) Delivery is interrupted or reduced during Normal Operation Hours as a result of a breach of this Agreement or negligence by the Distributor or its contractors, agents, employees or persons under its control,

(together "Unplanned Outages"),

and the power supply and Delivery has not been restored within 6.0 hours of notification of the failure, then the Distributor will pay the Connected Customer 1/12 of the annual distribution component of the annual use of system charges for the affected ICP.

- (b) In the case of natural disaster (such as, but not limited to snow storms, high winds, lightning, floods and earthquakes) the Distributor will use its best endeavours to restore electricity delivery as soon as practicable, having regard to the significance of the Connected Customer's operations and prioritising accordingly. In these circumstances no non-performance payments will be made.
- (c) Faults caused by Transpower will not be subject to non-performance payments.
