

ELECTRICITY INFORMATION DISCLOSURE

NEW LINE CHARGES FOR THE ANAU EMBEDDED NETWORK

TE ANAU EMBEDDED NETWORK

Here are Aurora Energy's new line charges effective 1 April 2022.

Aurora Energy's line charges include the cost of distributing electricity to you across our embedded network, and the costs levied by the parent network company (The Power Company) for the transmission and distribution of electricity to our embedded network.

The Commerce Commission regulates to constrain the revenues of distribution businesses like Aurora Energy, to protect the interests of consumers. They also set stringent standards for service performance.

Aurora Energy provides network distribution services to electricity retailers and bills them line charges. Line charges are just one component of your power bill, and each retailer decides how it will reflect line charges in the amount you pay. Accordingly, Aurora Energy cannot guarantee the line charges specified here are the line charges that retailers bill consumers.

For retail electricity prices please contact your retailer.

Effective from 1 April 2022, this disclosure details our new line charge prices in accordance with Aurora Energy Limited's Electricity Distribution Customised Price-Quality Path (CPP), and the Electricity Distribution Information Disclosure Determination 2012.

New prices largely result from increased distribution revenue allowed by the Commerce Commission under the recently reset default price-quality path and a regulatory incentive adjustment. A full explanation of the factors affecting this price change will be given in our updated pricing methodology, due for publication on our website (www.auroraenergy.co.nz) on 31 March 2022. All prices exclude GST.

NOTES

Winter rates apply 1 May to 30 September. Summer rates apply 1 October to 30 April. Prices exclude GST.

If connections in capacity groups 16kVA and above satisfy the criteria in the Electricity (Low Fixed Charge Tariff Option for Domestic Consumers) Regulations 2004 to be classified as domestic, then Residential pricing applies as the low fixed charge option. Pricing information, including a copy of this notice, is maintained on Aurora Energy's website www.auroraenergy.co.nz

There are no transmission charges included.

	"Prices effective from 1 Apr 2022 to 31 Mar 2023"				"Prices effective from 1 Apr 2021 to 31 Mar 2022"			
	Connections	Distribution	Pass-through	Total	Distribution	Pass-through	Total	
Residential								
Daily fixed price (15 kVA)	138	30.00		30.00	15.00		15.00	¢ / day
