

ELECTRICITY PRICING SCHEDULE

EFFECTIVE 1 APRIL 2023

NEW DISTRIBUTION PRICES

Aurora Energy's annual pricing adjustments will take effect from 1 April 2023. The reasons for this year's price increase were the subject of a consultation with the public and approval by the Commerce Commission during 2021, as part of our five-year investment plan to improve the safety and reliability of the electricity network. Our price increase reflects the Commerce Commission's 2021 approval.

The average customer charges increase by 14.8%, which includes a 4.4% adjustment due to higher than expected inflation, and a 1.4% increase for transmission costs arising from Transpower's new Transmission Pricing Methodology. Your charges may also be impacted by the Government's decision to phase-out low-user fixed charges, and a simplification of Aurora Energy's tariff structure.

These changes are fully detailed in an updated version of Aurora Energy's Pricing Methodology, which will be published on our website (www.auroraenergy.co.nz) on 2 March 2023.

For more information about electricity pricing, including FAQs, please head to our website.

WHAT MAKES UP YOUR ELECTRICITY BILL?

Aurora Energy takes power from Transpower's national grid and distributes it to your place via power lines and underground cables. Our line charges are just one part of your power bill, and each retailer (who you pay your bill to) packages up the costs differently. Because of this, Aurora Energy cannot guarantee the line charges specified here are the line charges that retailers will bill you. For retail electricity prices, please contact your electricity retailer.

Our line charges recover the direct costs of distributing electricity to you across our network (distribution prices), as well as other indirect costs (pass-through prices) including incentives, rates, regulatory levies, and electricity transmission from Transpower's national grid.

WHO WE ARE:

Aurora Energy is one of New Zealand's largest electricity networks. We own and manage the network that delivers electricity to some of the fastest growing areas and over the most diverse terrain in the South Island. We power homes, businesses and the wider community and deliver a safe, reliable and sustainable electricity supply in Dunedin, Central Otago/Wanaka and Queenstown Lakes.

NOTES

- Prices exclude GST
- Transmission charges represent 18% of total revenue.
- The Frankton sub area is defined by Aurora Energy as comprising connections at threat of uneconomic bypass as a result of competitive, grid-connected, distribution. A prudent discount policy applies. If connections in capacity groups 16kVA and above satisfy the criteria in the Electricity (Low Fixed Charge Tariff Option for Domestic Consumers) Regulations 2004 to be classified as domestic, then Residential pricing applies as the low fixed charge option.
- Pricing information, including a copy of this notice, is published on Aurora Energy's website: www.auroraenergy.co.nz

Aurora Energy is a wholly owned subsidiary of Dunedin City Holdings Limited, which is in turn owned by the Dunedin City Council. Our principal regulators are the Commerce Commission and the Electricity Authority.
